Note of release:

This plan is just a recommendation and must only be used after release by the planner / architect commissioned by the building owner or approval by the direction of works authorised by the building owner! AGROB BUCHTAL GmbH expressly excludes liability for all kinds of damages which may result from the plan! Without corresponding release the documents are used on the own responsibility and at the sole risk of the executive of construction works.

This plan has been examined, found correct and released for execution:

Place, date Stamp and signature

SPORTS COMPLEX

--- static movement joints / joints in the structure
--- additional movement joints in the ceramic covering
Movement joints are to be positioned according to static requirements and local conditions or in accordance with the instructions of the architect or responsible resident engineer. All movement joints, additional expansion joints in the covering etc., which are shown in drawings from the service for architects, shall be regarded as recommendations only.
Our suggested methods of sealing are given for guidance only.
Binding instructions must be given by the architect or supervision of construction.
We recommend to use epoxy resin for filling the joints in the whole pool head area, including channel in case of chemical stresses caused by salt-, sea or thermal water, the entire pool should be jointed with epoxy resin. It is absolutely necessary to follow the processing instructions given by the manufacturer / supplier.
The currently valid FINA rules as well as the regulations of the country in question have to be observed.
Number and position of channel outlets are to be fixed by the expert planner.
Our instructions concerning the cleaning of ceramic coverings have strictly to be observed.
The colour representation in this plan is non-binding and may partly considerably differ in reality!

It must not be duplicated or made accessible to third parties without our consent.

DEUTSCHE STEINZEUG AGROB BUCHTAL

1. PCI SILCOFORM VE
2. PCI POLYBAND OR SEPARATING FOIL
3. ELASTIC WATER-RESISTANT FILLING MATERIAL
4. JOINT BAND / PROFILE
5. SLIDE BEARING
6. AGROB BUCHTAL PLASTIC COVER GRATINGS
7. CAPILLARY BARRIER / COUS (SQUELLENT) WITH PCI APOTEN
8. WATERPROOF CONCRETE (DIN EN 206 / DIN 1045 / DAISB-WU)
9. CONVENTIONAL THICK-BED LAYING (DIN 18 352) WITH BONDING SLURRY PCI REPAHAT
10. THIN-BED LAYING (DIN 18 357) ON CEMENT RENDER P. III, CS IV WITHOUT CALCULUM (DIN EN 998-1)
11. SEALING LAYER PCI SECCORAL
12. SEALING TAPE PCI RECTAPRE
13. OUTLET VALVE "SILENT W 2000" OF AGROB BUCHTAL
14. AIR INLET PIPE FOR OUTLET "SILENT 100"
15. PCI DURAPOX NT
16. AGROB BUCHTAL COVERED GUTTER TILE
17. CASING FOR WATER INLET WITH OUTLET PIPE AND BRAZING COLLAR

1. Силикон производства фирмы «PCI» Silcoform.
2. Разделительная лента производства фирмы «PCI»
3. Водонепроницаемый эластичный наполнительный материал
4. Шовная лента, профиль
5. Скользящая опора
6. Решетка Agrob Buchtal
7. Капиллярная запорная масса производства „PCI“
8. Бетон с высоким сопротивлением проникновению воды
9. Обычный тонкослойный цементный слой вместе с Специальные склеивающие суспензии PCI Repahat
10. Тонкослойный цементный слой на цементной штукатурке
11. Изоляция многослойная производства «PCI» Seccoral
12. Уплотнительная лента производства „PCI“ Rectapre
13. Шумопоглощающий слив Agrob Buchtal Silent W 2000
14. Шумопоглощающий слив Agrob Buchtal Silent 100
15. Затирка для бассейнов производства PCI
16. Керамическая получаща Agrob Buchtal
17. Водопроницаемый «рачик» с водоотводной трубой и фланцевым уплотнительным.
